EXPERIENCE

Head of Data & Technology PWAN Premium Realtors & Concerns LTD

- 03/2025 - Present
- Built internal reporting tools and automated workflows for sales, customer, and operations teams supporting 20+ staff.
- Delivered 50+ dashboards and reporting views, with SQL, Google Sheets, and Apps Script integrations for shared data and recurring updates.
- Automated scheduled reporting and data refresh workflows, reducing manual spreadsheet work by 60-70%.

Freelance Data Analyst | Reporting, Automation & Client Support Upwork & Fiverr

- 06/2022 - Present
- Delivered analytics, reporting, and automation assignments across a broader freelance practice; developed web and workflow tools during the past 2 years.
- Built Python and Apps Script utilities for file handling, data cleanup, report generation, and repeatable business processes.

EDUCATION

B.Sc., Computer Science

March 2020 - January 2023

Computer Engineering coursework

February 2015 - March 2020

PROJECTS

FixMyLGA

- Built a civic reporting platform across 774 LGAs, connecting location and media evidence with moderation, contributor profiles, verification, and resolution tracking.

Operations Hub

- Built a password-protected app for receipts, memos, payroll, and commissions, with modular navigation, document downloads, JSON storage, and optional Supabase persistence.

Backorder Automation

- Built report uploads and merging, preserved delivery context, generated customer reports, and prepared Outlook drafts with a human review step.

SUMMARY

Full Stack Developer with 2 years of development experience building data-backed web applications, internal business tools, and automated workflows. Uses Django, Python, JavaScript, PostgreSQL/PostGIS, Streamlit, and Supabase to connect interfaces, data, reporting, and document generation. Brings additional freelance analytics and client-delivery experience since 2022.
